

**Glenn Hegar** Texas Comptroller of Public Accounts

# Report of the Texas Economic Development Act | 2021

# Introduction

In 2001, the Texas Legislature established the Texas Economic Development Act, often called Chapter 313 for its place in the Texas Tax Code. The Chapter 313 program allows public school districts to offer tax incentives for businesses that make large capital investments and create jobs in Texas communities. The Texas Comptroller of Public Accounts (CPA) administers this program, devoting over 20,000 hours of staff time annually to the task. Chapter 313 currently is set to expire on December 31, 2022.

In 2019, there were 383 active agreements. Of those, 42 percent were for manufacturing projects and 57 percent were for renewable energy projects. In the 2021 report, there are 509 active agreements; 38 percent are for manufacturing projects and 61 percent are for renewable energy projects. There are four research and development projects in each report.

The Chapter 313 program continues to grow. In 2017, CPA received 68 new applications. The number of new applications grew to 94 in 2018 and to 133 in 2019.

This report contains information on each of the 509 active agreements and aggregate data of these agreements. The information is submitted in compliance with Texas Tax Code, Chapter 313.032.

## Statutory Reporting Requirements

HB 3390 from the 83rd Legislature, Regular Session, repealed the reporting requirements in Sec. 313.008 and amended the reporting requirements in Sec. 313.032 to encompass all reporting requirements.

### **Sec. 313.032. REPORT ON COMPLIANCE WITH AGREEMENTS.**

- (a) Before the beginning of each regular session of the legislature, the comptroller shall submit to the lieutenant governor, the speaker of the house of representatives, and each other member of the legislature a report on the agreements entered into under this chapter that includes:
  - (1) an assessment of the following with regard to the agreements entered into under this chapter, considered in the aggregate:
    - (A) the total number of jobs created, direct and otherwise, in this state;
    - (B) the total effect on personal income, direct and otherwise, in this state;
    - (C) the total amount of investment in this state;
    - (D) the total taxable value of property on the tax rolls in this state, including property for which the limitation period has expired;
    - (E) the total value of property not on the tax rolls in this state as a result of agreements entered into under this chapter; and
    - (F) the total fiscal effect on the state and local governments; and
  - (2) an assessment of the progress of each agreement made under this chapter that states for each agreement:
    - (A) the number of qualifying jobs each recipient of a limitation on appraised value committed to create;
    - (B) the number of qualifying jobs each recipient created;
    - (C) the total amount of wages and the median wage of the new qualifying jobs each recipient created;
    - (D) the amount of the qualified investment each recipient committed to spend or allocate for each project;
    - (E) the amount of the qualified investment each recipient spent or allocated for each project;
    - (F) the market value of the qualified property of each recipient as determined by the applicable chief appraiser, including property that is no longer eligible for a limitation on appraised value under the agreement;
    - (G) the limitation on appraised value for the qualified property of each recipient;
    - (H) the dollar amount of the taxes that would have been imposed on the qualified property if the property had not received a limitation on appraised value; and
    - (I) the dollar amount of the taxes imposed on the qualified property.
- (b) The report may not include information that is confidential by law.(b-1) In preparing the portion of the report described by Subsection (a)(1), the comptroller may use standard economic estimation techniques, including economic multipliers.
- (c) The portion of the report described by Subsection (a)(2) must be based on data certified to the comptroller by each recipient or former recipient of a limitation on appraised value under this chapter.
- (d) The comptroller may require a recipient or former recipient of a limitation on appraised value under this chapter to submit, on a form the comptroller provides, information required to complete the report.

The purpose of the Chapter 313 program is expressly laid out in Section 313.003 of the Tax Code. Specifically, the program is intended to:

- (1) encourage large-scale capital investments in this state;
- (2) create new, high-paying jobs in this state;
- (3) attract to this state large-scale businesses that are exploring opportunities to locate in other states or other countries;
- (4) enable state and local government officials and economic development professionals to compete with other states by authorizing economic development incentives that are comparable to incentives being offered to prospective employers by other states and to provide state and local officials with an effective means to attract large-scale investment;
- (5) strengthen and improve the overall performance of the economy of this state;
- (6) expand and enlarge the ad valorem property tax base of this state; and
- (7) enhance this state's economic development efforts by providing state and local officials with an effective local economic development tool.

## Aggregate Data

Table 1 pertains to Section 313.32(a)(1) and aggregates data for agreements entered into under Chapter 313 through June 1, 2020.

Table 1

### 2019 Aggregate Data

Total number of jobs created, direct and otherwise, in this state in 2019 <sup>1</sup>	56,200
Total effect on personal income, direct and otherwise, in this state in 2019	\$2,486,369,000
Total amount of investment in this state reported through 2019	\$134,214,858,000
Total taxable value of qualified property on the tax rolls in this state in 2019, including property for which the limitation period has expired	\$16,285,949,000
Total value of qualified property not on the tax rolls in this state in 2019 as a result of agreements entered into under this chapter	\$47,398,665,000
Total fiscal effect on the state and local governments through 2019 <sup>2</sup>	\$1,533,238,000

**Note:** Total number of jobs created is rounded to the nearest hundred. All other figures have been rounded to the nearest thousand.

<sup>1</sup> The multipliers used in this analysis were the direct-effect employment and direct-effect earnings RIMS II Industry Multipliers for Texas (<https://www.bea.gov/regional/rims/rimsii/>). These multipliers represent the estimated change in employment (earnings) that occur given the number (amount) of direct Chapter 313 jobs (earnings).

The estimates listed in this table represent the product of the direct jobs (earnings) by industry and their corresponding RIMS II state-level multipliers. No attempt has been made by the Comptroller's Office to modify/change the values of these multipliers.

To obtain a copy of these state-level multipliers, please visit the URL above to access the U.S. Department of Commerce's Bureau of Economic Analysis.

<sup>2</sup> Fiscal effect calculation is the total Maintenance and Operations (M&O) taxes and Interest and Sinking fund (I&S) taxes reported by company through 2019.

## A Report of the Texas Economic Development Act

### Listing of Applications by District & County

Below is a listing of value limitation agreements by school district and county. Information for each project is listed in numerical order, from smallest to largest, on the following pages.

Agreement #	School District	County
1364	Abbott ISD	Hill
255	Adrian ISD	Oldham
313	Adrian ISD	Oldham
51	Albany ISD	Shackelford
1025	Alpine ISD	Brewster
1281	Andrews ISD	Andrews
1293	Andrews ISD	Andrews
